CONTENT ANALYTICS REPORT

EXPLORATORY DATA ANALYSIS &
BUSINESS INSIGHTS

PREPARED FOR :
Data Analyst Portfolio

DATASET:
netflix_titles.csv

EXECUTIVE SUMMARY

8,807

TOTAL CONTENT

6,131

TOTAL MOVIES

2,676

TOTAL TV SHOW

This report presents a comprehensive EDA of the Netflix Titles dataset, comprising 8,807 titles spanning Movies and TV Shows. The analysis covers content distribution, regional contributions, genre trends, director productivity, ratings, and release patterns.

KEY FINDINGS:

- ▶ MOVIES DOMINATE → 69.6% OF ALL CONTENT ARE MOVIES
- ▶ US LEADS PRODUCTION → 3,690 TITLES, 2X MORE THAN INDIA
- ▶ PEAK YEAR: 2019 → NETFLIX ADDED 1,999 NEW TITLES
- ▶ TV-MA DOMINATES → 3,207 TITLES TARGETING ADULT VIEWERS
- ▶ INTERNATIONAL MOVIES → #1 GENRE, REFLECTING GLOBAL STRATEGY
- ▶ TV SHOW GROWTH → ACCELERATED RAPIDLY AFTER 2015

PROJECT OVERVIEW:

Attribute	Detail
Dataset Source	Kaggle — Netflix Movies and TV Shows
Total Records	8,807 titles
Tools Used	PostgreSQL, Power BI
Release Year Range	1925 – 2021
Date Added Range	2008 – 2021

DATA QUALITY & CLEANING

MISSING VALUES SUMMARY

Column Name	Missing Values	Missing %	Action Taken
Director	2,634	29.9%	Retained as NULL
Country	831	9.4%	Filtered in analysis
Rating	4	0.0%	Trimmed whitespace
Date Added	10	0.1%	Excluded from time analysis

CLEANING STEPS PERFORMED

1. ADDED DATE_ADDED_CLEAN COLUMN (DATE TYPE) BY CONVERTING TEXT FORMAT USING TO_DATE()
2. TRIMMED LEADING/TRAILING WHITESPACE FROM DIRECTOR, COUNTRY, AND RATING COLUMNS
3. VERIFIED DATE CONVERSION WITH 10-ROW SPOT CHECK QUERY
4. CHECKED FOR DUPLICATE SHOW_ID — NO DUPLICATES FOUND

SQL CODE SNIPPET

```
-- ADD CLEANED DATE COLUMN
ALTER TABLE NETFLIX
ADD COLUMN DATE_ADDED_CLEAN DATE;

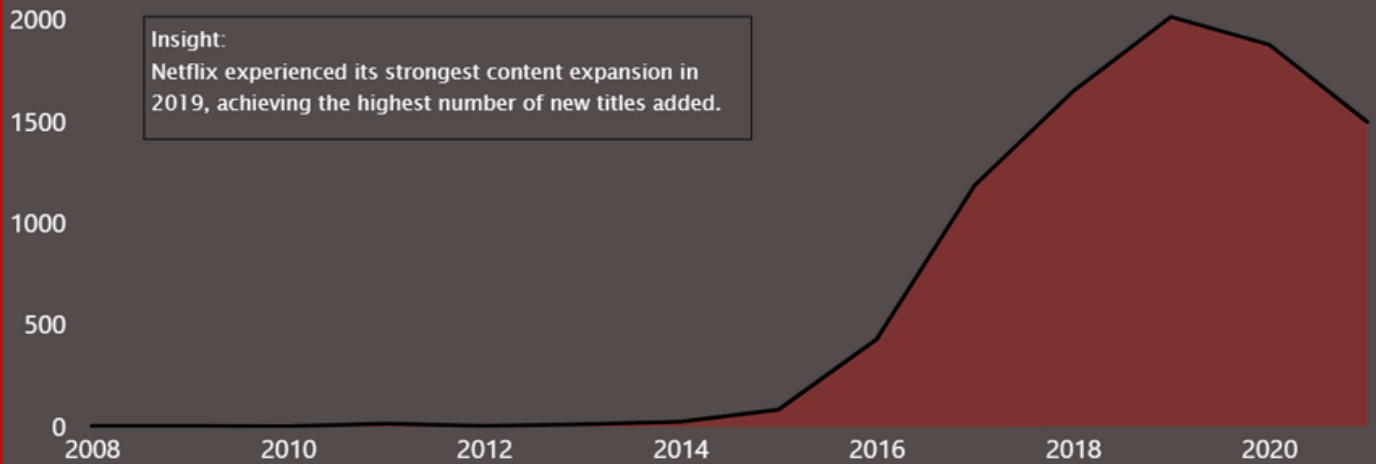

-- CONVERT TEXT DATE TO DATE FORMAT
UPDATE NETFLIX
SET DATE_ADDED_CLEAN = TO_DATE(DATE_ADDED, 'MONTH DD, YYYY')
WHERE DATE_ADDED IS NOT NULL;

-- REMOVE LEADING AND TRAILING SPACES
UPDATE NETFLIX
SET DIRECTOR = TRIM(DIRECTOR),
    COUNTRY = TRIM(COUNTRY),
    RATING = TRIM(RATING)
WHERE DIRECTOR IS NOT NULL
    OR COUNTRY IS NOT NULL
    OR RATING IS NOT NULL;

-- VERIFY DATE CONVERSION
SELECT DATE_ADDED, DATE_ADDED_CLEAN
FROM NETFLIX
LIMIT 10;
```

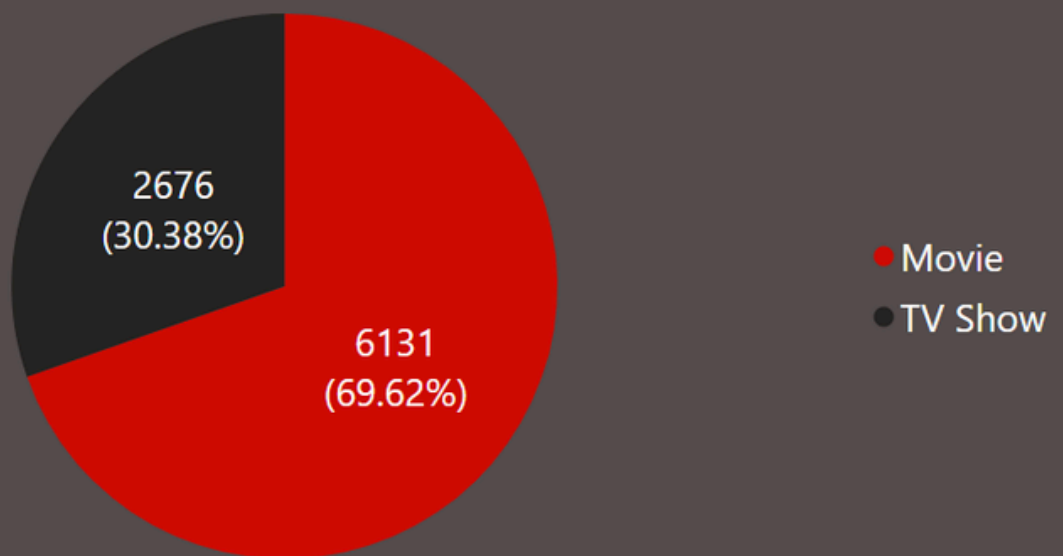

CONTENT OVERVIEW

Netflix Content Added Over Time

💡 NETFLIX EXPERIENCED ITS STRONGEST GROWTH IN 2019, ADDING 1,999 NEW TITLES. POST-2019 DECLINE REFLECTS COVID-19 PRODUCTION DISRUPTIONS.

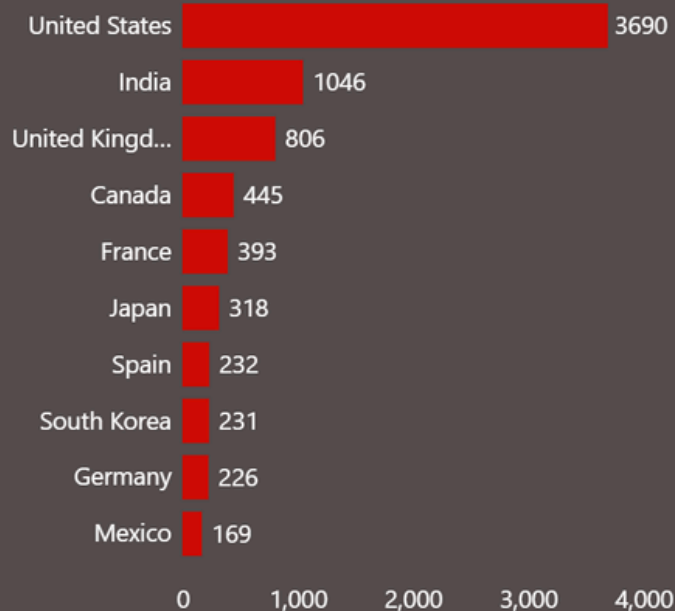

Content Type Distribution

💡 MOVIES DOMINATE AT 69.62%, THOUGH TV SHOW PRODUCTION HAS ACCELERATED SIGNIFICANTLY SINCE 2015.

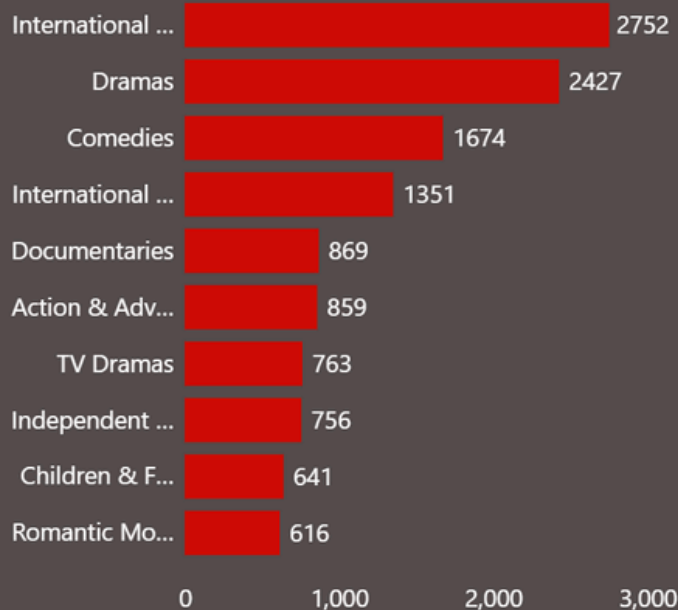

GEOGRAPHIC & GENRE ANALYSIS

Top 10 Countries

💡 THE UNITED STATES DOMINATES WITH 3,690 TITLES — MORE THAN DOUBLE INDIA (1,046). THE STRONG PRESENCE OF ASIAN COUNTRIES (INDIA, JAPAN, SOUTH KOREA) REFLECTS NETFLIX'S AGGRESSIVE EXPANSION INTO ASIAN MARKETS.

Top 10 Genres

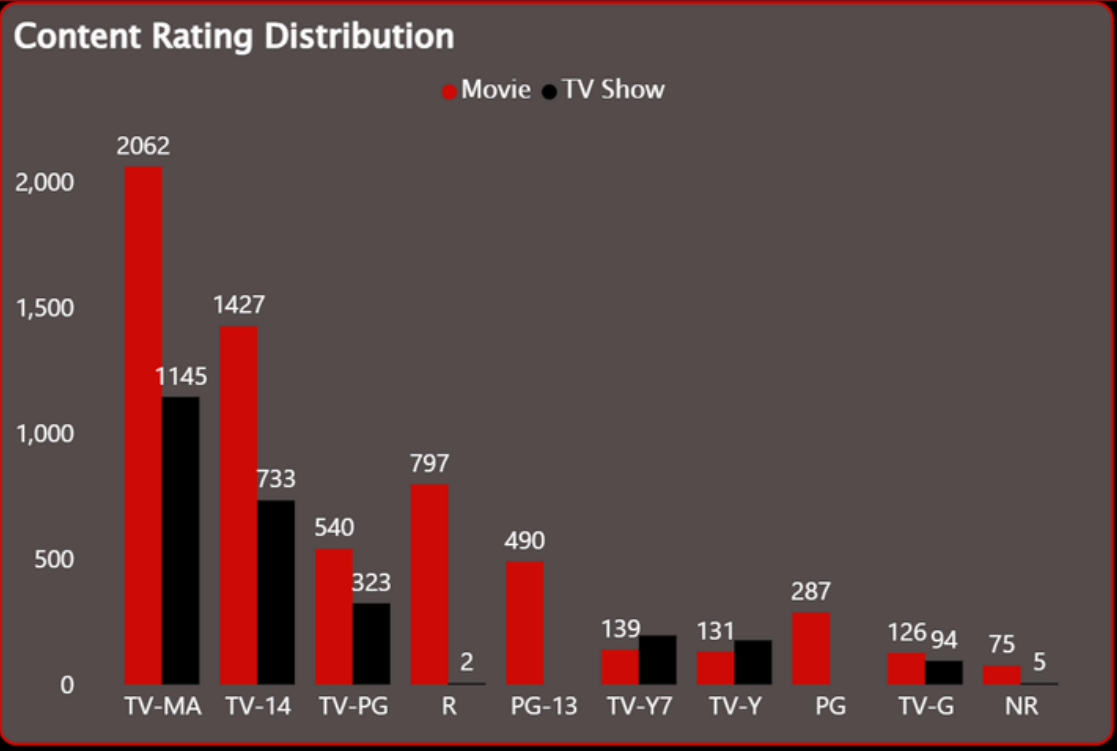

💡 INTERNATIONAL MOVIES RANK #1, CONFIRMING NETFLIX'S GLOBAL CONTENT STRATEGY. DRAMAS AND COMEDIES FOLLOW AS UNIVERSALLY POPULAR GENRES. THE HIGH COUNT OF INTERNATIONAL TV SHOWS SIGNALS GROWING CROSS-BORDER SERIES CONSUMPTION.

DIRECTORS & RATINGS ANALYSIS

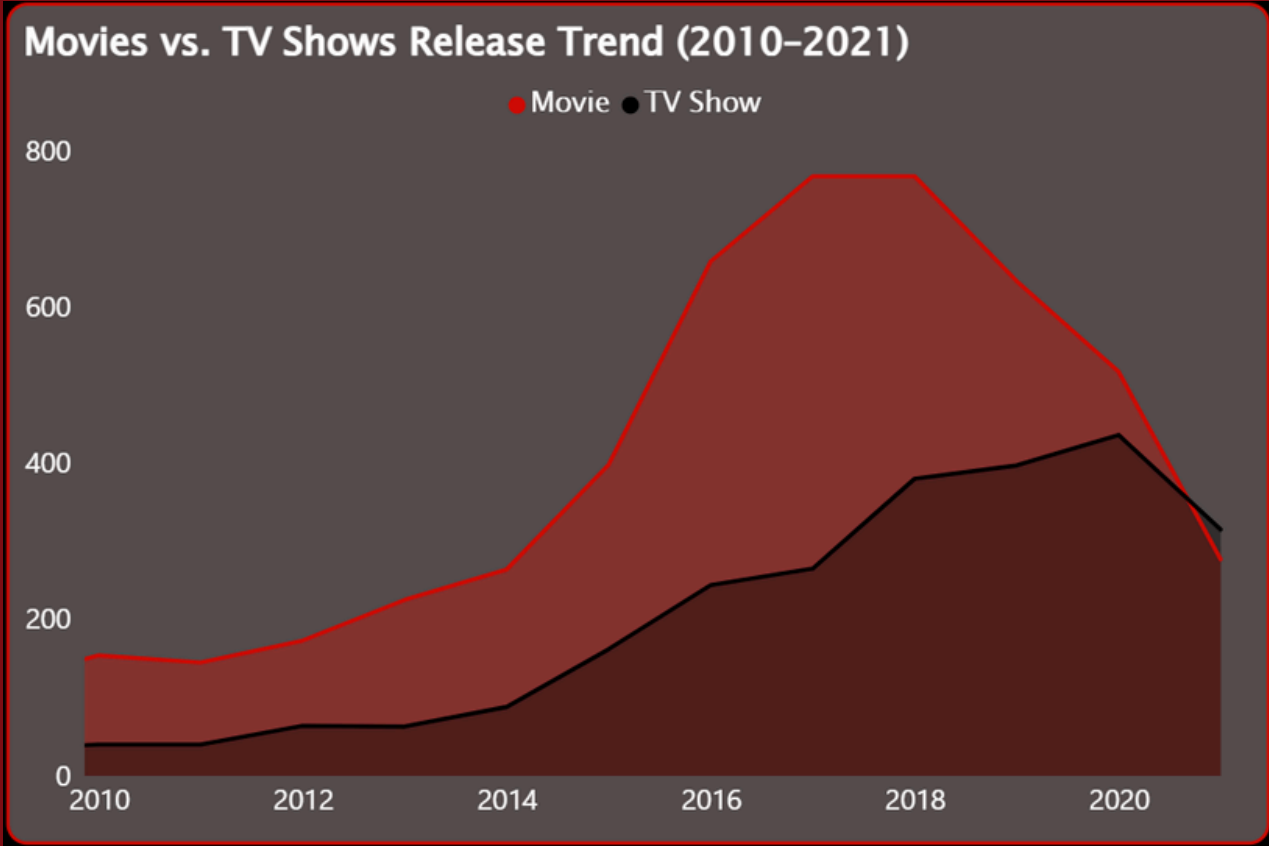

💡 RAJIV CHILAKA LEADS WITH 22 TITLES, PRIMARILY ANIMATED CHILDREN'S CONTENT. THE DIVERSE MIX OF INTERNATIONAL DIRECTORS REFLECTS NETFLIX'S GLOBAL SOURCING STRATEGY. NOTE: 29.9% OF RECORDS HAVE MISSING DIRECTOR DATA.

💡 TV-MA DOMINATES WITH 3,207 TITLES, INDICATING NETFLIX'S CORE FOCUS ON MATURE AUDIENCES (18+). FAMILY-FRIENDLY RATINGS (TV-G, TV-Y) REPRESENT A GROWTH OPPORTUNITY.

RELEASE TRENDS (2010–2021)

Year	Movies	TV Shows	Total
2010	154	40	194
2011	145	40	185
2012	173	64	237
2013	225	63	288
2014	264	88	352
2015	398	162	560
2016	658	244	902
2017	767	265	1,032
2018	767	380	1,147
2019	633	397	1,030
2020	517	436	953
2021	277	315	592

💡 TV SHOW RELEASES GREW RAPIDLY AFTER 2015, NARROWING THE GAP WITH MOVIES. BOTH PEAKED AROUND 2017–2019, REFLECTING NETFLIX'S PEAK CONTENT INVESTMENT. POST-2019 DECLINE IS CONSISTENT ACROSS BOTH TYPES DUE TO COVID-19 DISRUPTIONS.

SQL METHODOLOGY

ALL ANALYSIS WAS PERFORMED USING POSTGRESQL FOLLOWING A STRUCTURED 4-PHASE WORKFLOW. VIEWS WERE CREATED FOR MULTI-VALUE COLUMNS TO AVOID REPEATING COMPLEX UNNEST LOGIC, ENABLING CLEANER AND MORE EFFICIENT QUERIES THROUGHOUT THE EDA PROCESS.

Phase	File	Key Techniques
01 — Data Quality Check	01_data_quality_check.sql	COUNT FILTER, DISTINCT, HAVING, MIN/MAX
02 — Data Cleaning	02_data_cleaning.sql	ALTER TABLE, TO_DATE(), TRIM(), UPDATE
03 — Create Views	03_create_views.sql	CREATE VIEW, UNNEST, STRING_TO_ARRAY, TRIM
04 — EDA	04_eda.sql	EXTRACT, GROUP BY, ORDER BY, LIMIT

💡 VIEWS WERE CREATED FOR MULTI-VALUE COLUMNS (COUNTRY, GENRES, DIRECTORS) TO ENABLE CLEAN, REUSABLE QUERIES WITHOUT REPEATING UNNEST LOGIC IN EVERY ANALYSIS.

CONCLUSIONS & RECOMMENDATIONS

1

CONTENT STRATEGY

Movies dominate but TV Shows are growing fast. Netflix should continue investing in serialized content to increase retention.

2

GEOGRAPHIC EXPANSION

US leads but India, South Korea & Japan confirm success of Netflix's localization strategy.

3

GENRE FOCUS

International content and Dramas drive the largest audiences — high ROI content types.

4

AUDIENCE TARGETING

TV-MA dominates — core demographic is adults 18+. Growth opportunity exists in family content.

5

CONTENT TIMING

Post-2019 dip is an opportunity to accelerate releases amid increasing streaming competition.

6

DATA QUALITY

29.9% missing director data limits analysis. Future data collection should prioritize completeness.
